CORRECTIVE ACTIONS:

1 CA# 188351

Corrective Action: The storage, placement, or maintenance of equipment, vehicles, trailers, commercial products, chemicals, drums, totes, containers, materials & all other supplies not necessary for use on oil & gas locations is prohibited. Date: 12/17/2023

Response: CA COMPLETED Date of Completion: 11/27/2023

Operator Comment: TEP's Field Production Supervisor inspected the location and confirmed that the equipment noted by the inspector is not equipment that is related to TEP's oilfield operations. Rule 606.a. states that "The storage, placement, or maintenance of equipment, vehicles, trailers, commercial products, chemicals, drums, totes, containers, materials, and all other supplies not necessary for use on an Oil and Gas Location is prohibited." However, Rule 606.a.(1) states that this prohibition only "... applies to the Operator and all contractors.." The equipment noted by the inspector does not belong to TEP, therefore, TEP is not storing any equipment at this

location that is in violation of this rule. Furthermore, TEP's Field Production Supervisor has determined that the equipment noted by the inspector is at the far edge of the location and does not interfere with TEP's ability to safely conduct day-to-day operations at this location, nor will these items interfere with access/egress by emergency response vehicles if needed. This corrective action has been addressed.
