General Comment:

Alternative needs inspection, see the FIR#707100007

Previous Field Inspection Report is edited due to final reclamation status passed, but failed to check box closing site.

This is an orphaned well inspection with emphasis on stormwater controls and reclamation status. Inspection to evaluate surface conditions only As the well is part of Orphaned Well Program. All other open/required tasks for well/location abandonment remain open until completed and closed. With no current operator corrective actions from previous field inspections have not been performed. Previous corrective actions will be evaluated and may be converted into well abandonment task. Tasks will be prioritized and completed as part of well abandonment. Due to location conditions and with no operator to provide assistance this inventory is informational only and may not identify all flowlines and risers.

Comment:

<p>This is a final reclamation inspection. Document #(insert 6S document number here) describes plugging the well on (insert plugging date from the form not always the same as scout card). All related facilities and remediation are closed and resolved.</p> <p>Location is stabilized and consistent with surrounding land use). No evidence of well or related facilities observed. Weeds not observed.</p> <p>Landowner requests no further action at site.</p>
