Land Use:

Current Land Use: CROP LAND Other(Specify): _____

Weather Condition: Sunny warm

Surface Owner: FEE Other(Specify): Western Midstream

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

Ft. Lupton FD responded to a call of a leak; KPK responded & shut in the wells & lines associated with the release. KPK notified all appropriate parties. Surface owner Western Midstream was notified on 9/19/22. Field personnel noted oil-stained soil at 40.09332 / -104.88629 and excavated the impacted soil. A berm was built around the exposed hole & temporary orange construction fence outlined the hole to prevent un-authorized entry to excavation. Field personnel submitted soil samples at the point of release & background location. Depth to water is estimated between 8'-10' bgs. Spill contained oil & produced water. Root cause identified as internal corrosion of the steel consolidation line. Preventative measures include installation of a 6" poly pipe through the existing 12" steel pipe, extending from the isolation valves at the Spindle plant to the isolation valves near the leak. The repair work was successfully completed and pressure tested on October 21, 2022 (see attached).

COA Type**Description**

	Operators attached COA tracker indicates "Northern portion of documented excavation is sloped to provide access to the floor of the excavation. A soil sample will be collected midway through the slope to provide a northern sidewall sample and soil samples will be analyzed for ECMC table 915-1 analytes." . Operator shall collect confirmation soil samples as described in the Rule 915.e.(2) Guidance Document.
	Operator's Corrective Action Report is insufficient. Operator does not specify the CAUSE of the corrosion nor measure to prevent recurrence from other segments of this line. Operator shall submit a detailed corrective action report providing a root cause and what is being done at this and other locations to prevent a reoccurrence at this and other locations. This shall be provided on the next quarterly Form 27.
