Comment:	No visual evidence of oil and gas equipment at the well or associated tank battery location. Refer to the attached inspection photos.		
	Note- surface owner has left the tank battery location graveled and stabilized, and has changed the land use for that area that was previously an agricultural field.

COGCC Rules(check all that apply)									
<input type="checkbox"/> 1101. Installation and Reclamation <input type="checkbox"/> 1102. Operations, Maintenance, and Repair <input type="checkbox"/> 1103. Abandonment									
Comment:		Staff did not observe the required registration and abandonment notices (Form 44) for off-location flowlines. Note- Operator attempted to submit flowline information (abandoned in place) via a Form 4 Final Reclamation Complete Notice (Doc.# 403128361). Since that was the wrong form it was denied. The following comment was made on the denied form: Operator shall comply with all 1100 series rules and regulations. There is no evidence that the Operator has complied with Rules 1005.e. and 1005.f and the flowlines do not appear to have not been registered per Rule 1101.							
Corrective Action:		Operator shall contact the Engineering group to resolve the outstanding rule violations for registration and abandonment notices for off-location flowlines.						Date: 02/21/2024

Comment:

Corrective Action:	<p>This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within three months of plugging on cropland. Well was plugged 07/10/2019. Gravel remains at the well location, which has not been re-contoured or re-graded, and there is no crop growth at the well location.</p> <p>Operator submitted false documentation via a Form 4 Final Reclamation Complete Notice (Doc.# 403128358), stating hay was planted and growing. It is evident in the May 2023 aerial imagery and this inspection that there is no crop growth at the well location.</p>	Date 02/09/2024
	<p>Perform reclamation in accordance to Rule 1004. Due to the uncertainty with landowner agricultural activities, Staff will not issue a future corrective action date. Collaborate with the landowner to allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production.</p>	
	<p>The corrective action date is the date the location was observed out of compliance.</p>
