Comment:

The beginning of the access road has not been reclaimed and the fence has not been reinstalled to the original position. There is a two track road that will need to be decompacted and reclaimed. Due to snow cover and wet conditions an inspection of the location was not performed. If needed additional reseeding of the location will need to be performed before the upcoming growing season. Ongoing mowing should be performed throughout the growing season to prevent competitive weed growth. Continue to monitor and maintain the location until the final reclamation requirements are achieved.

Corrective Action: **Comply with 1004 Rules**

Date **03/15/2024**

Overall Final Reclamation **Fail** Well Release on Active Location Multi-Well Location
