Environmental

Spill/Remediation:

Comment:

ECMC Environmental Inspection of remediation of historical impacts discovered at well during plugging and abandonment. Reported as Spill ID 486151 with remediation reporting under Remediation Project 28548.

Operator had stockpiled several hundred yards of impacted material on location and was preparing to haul to Pawnee Waste for disposal. ECMC observed the excavation around the well. No groundwater was observed. Operator has excavated into bedrock. Operator stated that confirmation soil samples had been collected and results are anticipated within 1 week.

Flowline is exposed in southeast corner of excavation. Operator indicated intention to abandon in place and flowline had been cut/capped at junction with trunkline with soil samples collected for analysis of Table 915-1 contaminants of concern. Operator will submit Form 44 for flowline abandonment in place with documentation required by Rule 1105.e. and 1105.f. (2)D.

Spill ID may be closed with reference to Remediation Project 28548 once updated Supplemental Form 27 with analytical results and remediation plans and implementation schedule are submitted and approved.

Corrective Action:

Date:

Emission Control Burner (ECB):
