Inspection Photos

Operator Name: CAERUS PICEANCE LLC #10456

Location ID: 335780

February 27, 2024

Photo 3: Continued from photo 2. Photo shows outlet of the sediment trap. Outlet has not yet been fully installed in accordance with good engineering practices, as geotextile lining in conjunction with combination coarse aggregate and riprap material was not observed; currently only large diameter rock material appears to have been placed at the outlet.

Inspection Photos

Operator Name: CAERUS PICEANCE LLC #10456

Location ID: 335780

Photo 8: Photo taken from the slopes on the east end of the Location. Operator appears to have placed additional soil to repair the erosion degradation observed on the slopes on the east end of the Location. BMPs to stabilize the soils not observed per the CA. Unclear if additional reclamation work, such as seeding, has been performed.
