Operator  
Comment:

Caerus amended soils and reseeded the bare and thinly vegetated areas in November 2022. The first growing season, 2023, showed moderate first year establishment. Seed rows and germination is evident in ECMC inspection #702801521 from last May as well as internal Caerus inspections. We will continue to monitor the reclaim and evaluate the 2022 seeding efforts for at least one more growing season before conducting additional work.

COGCC Decision: Approved pending re-inspection

COGCC  
Representative:

Approved pending re-inspection. A follow-up of the Location will be conducted to evaluate compliance with 1004 Rules.
