**General Comment:**

This is an environmental inspection to document remediation progress and witness confirmation soil sampling at the PACE-CONNELLY 3 Spill (Spill ID 485681) performed on February 29, 2024., ECMC EPS, Laurel Anderson, met Operator representatives to witness confirmation soil sampling. Soil samples from the excavation south of the pumping unit and wellhead were obtained via excavator due to the depth of the excavation. Visibly stained soil was observed along the northern sidewall adjacent to/beneath the pumping unit and wellhead.

Any corrective actions from previous inspections that have not been addressed are still applicable. Any comments/conditions of approval from previously denied/approved forms that have not been addressed are still applicable.
