(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)
May 18th, 1987

18. Date of work _____ * Must be accompanied by a cement verification report.

After digging pits and building location, March 4th, 1987, in order to initiate drilling for expiring permit, well wasn't spudded until May 15th, 1987. After setting surface casing, well was drilled to a total depth of 5280 feet and electric logs run. Since there was no significant show of oil or gas, well was plugged and abandoned as follows:

- 20 sack cement plug from 75' to 115'
- 10 sack cement plug from surface to 30 feet.

Hole was filled with heavy mud, steel cap was welded on surface casing and Bottom Hole Cement Plug was waived by Commission Representative on May 18th, 1987.
