General Comment:**ECMC Inspection Report Summary**

On Monday 3/25/2024, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus E9W, at Location # 335030 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. Location shows signs of lack of stabilization and no evidence of tracking BMP's
2. Unmarked dead man

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
