**General Comment:**

This is a follow up of the previous reclamation inspections #713600359, #713600646.  
 The previous inspection corrective actions have not been completed.  
 Operator is directed to perform corrective actions immediately.  
 See attached photos and additional details within this report.

**Environmental****Spills/Releases:**

Type of Spill: OIL

Estimated Spill Volume: \_\_\_\_\_

Comment: Upon closer inspection of the tanks there is a spill that had occurred at the tank outlet. It appears some excavation has occurred but there was still impacted material observed. Previous corrective action has not been completed. Immediate clean up needs to be performed.

Corrective Action: Control and contain spills/releases and clean up per Rule 912.a.

Comment: **The well was plugged and abandoned on 12/1/2022. The electric utilities and tank battery still remains at the location. All equipment should have been removed within 3 months of abandonment. The access road and location have not been reclaimed and gravel remains with compacted soils. There are areas with undesirable weeds and erosion issues. Corrective action will remain out of compliance until completed.**
