Gentlemen:

Please be advised that the ground elevation datum on the captioned well as shown on Schlumberger's field print copies of the Formation Density Log and the Induction-Electrical Log as well as on Virg's Testers three Drill Stem Test Reports is incorrect. It is shown as 5326' whereas the correct datum is 4526'. Copies of Schlumberger's final logs will show the correct datum.

Very truly yours,

George M. Schneider
