Scott,

I have sent you a few messages regarding the ditch and field damage from a truck back on February 12th and again on March 5th with no response from you. I would like to discuss with you on how you would like the field work addressed. Upland has received an inspection report from ECMC since you filed a complaint on the 14th requesting I work with you on a plan to address the soils in these areas. You have yet to return my messages so can you please let me know when you are able to meet onsite to discuss or if you would respond to this email with your directions. Upland has raked the ditch areas and plans to further address this area as detailed in our Topsoil Management Plan. I would like to confirm with you the contractors approach and if there is anything further you would like done at this time.

Dustin
