General Comment:

On 4/5/2024, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at LARAMIE ENERGY LLC's HORSESHOE CANYON #1-28 location in Mesa County, Colorado.

Location is Fed Surface, Fed Mineral.

Location is within High Priority Habitat- Mule Deer Winter Concentration Area

The following compliance issues were observed during this inspection:

1004- Final Reclamation

1002.f- Stormwater

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspection that have not been addressed are still applicable.

Comment:

<p>Records show well was PA 9/23/2011. Location is Federal Surface- Final passing by the ECMC is subject to Federal Approval.</p> <p>It was observed in this inspection that the Location appears to meet ECMC 1004 reclamation requirements. However there are areas along the access road that are bare and unvegetated; Erosion degradation due to runoff also apparent within these areas of the access road.</p> <p>The overall status of the reclamation is considered "in process", however additional revegetation activities is required within the bare sections of the access road.</p>		Date 05/31/2024
Corrective Action:	<p>Comply with Rules 1004 and 1002.f: Conduct additional reclamation work within areas of the access road not progressing towards 1004 standards. Install or repair required stormwater and erosion control BMPs to manage runoff in a manner that minimizes erosion, degradation and sediment transport until long-term stabilization is achieved. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.</p>	
<p>Overall Final Reclamation In Process Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/></p>
