Approved.

On Thu, Mar 21, 2024 at 3:49 PM Alex Waner <[AWaner@verdadresources.com](mailto:AWaner@verdadresources.com)> wrote:

Hey Nick – As we discussed on the phone, we are seeing a good volume of gas through our combustor, we are currently at 5544', we will pull up to 5511' and set our Nio/bottom hole plug here. 200' plug, we will tag this tomorrow since there is gas present. The rest of the plugging job will be to procedure.

Please let me know if you approve.

Thanks,

Alex Waner
