Field inspection will be conducted to document Rule 1004.c. compliance

Comments:

Final reclamation of the Prather 1-5 well pad was completed in 2015 with additional reclamation seeding completed in 2018 and 2020. Based on surface owner requests the historical access road was left in place. The associated variance request was approved on April 10, 2024 through Final Order No. 1-351 (Docket Number 230300097). The remainder of the Well Site was recontoured and reclaimed. Qualitative monitoring and 2022 quantitative vegetation surveys show that vegetation establishment of the reclaimed disturbance matches the vegetative community of the surrounding reference area. Please see the attached vegetation survey report indicating that the reclaimed surface meets Rule 1004 standards. The field in which the site sits was formerly cultivated as cropland. In recent years, the field has been left fallow and weeds are dominant throughout.
