Detailed description of the issue(s)* (?)

Please provide as much detail as possible. It is important to narrow down the issue(s).

There seems to be an increase in the lower frequencies in the lower C band. This has been a recurring issue. My last complaint of 2/24/2023 resulted in backfill the base of the sound wall to lessen the transmission of these frequencies. It could be that this needs to be redressed. Thank you.
