Comment:

<p>Records show well was PA 9/6/2018. Location is Federal Surface- Final passing by the ECMC is subject to Federal Approval.</p> <p>Resolution document #402560682 states additional reclamation work (ripping, seeding, etc...) was performed by 12/24/2020.</p> <p>At least 3 growing seasons have passed since that additional work was performed. It was observed in this inspection that the areas of the Location east of the road are not progressing towards ECMC 1004 Standards: Location is predominantly bare, or vegetated by Undesirable Plant Species such as Kochia and Salsola sp; and though some desirable plant species were observed, establishment is sparse and not uniform.</p>		
Corrective Action:	<p>Comply with ECMC 1004 Rules and conduct additional reclamation on the Location. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage site until Final Reclamation has passed.</p>	Date 05/31/2024
Overall Final Reclamation Fail Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
