## OPERATOR COMMENTS AND SUBMITTAL

Comments

Please note, this is not an OGDG but is a location to be used for the development of a single stratigraphic well filed under CO Order 1-326 (Docket No. 2300900282). The proposed Front Range 2 Location and eventual proposed Front Range 2-1 well is required by the Environment Protection Agency's Underground Injection Control Program for Class VI wells. The Front Range 2-1 is part of a greater program to be used in conjunction with the Front Range 1-1 well, drilled in 2023. It is this Operator's goal to re-permit the Front Range 1-1 from that of a Stratigraphic Well, under ECMC primacy to that of a Class VI CO2 injection well under EPA primacy. The Front Range 2-1's intended use is that of a "Monitor Well," as part of the EPA UIC Class VI Program. The Front Range 2-1 well would not be hydraulically fracked, nor would hydrocarbons be produced.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
