Reclamation Specialist	<p>Sundry is a duplicate of Doc. 403743820, and is also being denied with the same comments:</p> <p>After review of the "Migratory Bird / Raptor Survey Report" document attached, it has been determined that the information provided is inadequate, and this Form 4 Sundry is being "Denied".</p> <p>Information within the attached report only indicates that "nesting migratory bird surveys" had been performed; Operator has not provided any supporting survey data, such as transect information and data sheets, points, photographs, etc...</p> <p>The report attached does not satisfy the corrective action requirements per Field Inspection Report #696205712; the requirement to submit this information remains outstanding</p> <p>Pursuant to Rule 1202.a.(8), nesting migratory bird surveys will be conducted prior to any vegetation removal during the growing season. Based on Satellite imagery, construction of the Location and flowline system commenced at some point between 7/30/2023 and 8/9/2023, within the nesting season for migratory birds (April 1 to August 31). It is being noted that the photographs that have been included within the report appear to have been taken in the fall after O&G construction operations commenced; vegetation evident within the photographs are senescing, and O&G disturbances are evident.</p>	04/24/2024
