This well was completed October, 1957 in the Sussex sand. It was shut in 1-9-58. At that time it was still returning load oil at the rate of 3 BOPD, cut 92%, pumping every third day. It failed to return the load oil from the sand oil squeeze on the original completion. It is planned to permanently abandon as follows:

Place 50 sacks cement over Sussex perforations 4263-4265'.

Place 15 sacks cement in top of surface casing with proper marker installed.

I/We hereby swear (or affirm) that the statements herein made are a full and correct report.
