Dear Mr. Howard:

In response to your letter, I am enclosing a copy of the completion report on the No. 1 Howard well in Section 17, T 7N, R 67W. This is all the information that we have on the well. We assume the well is mainly a gas well since Miami Oil Producers has stated it is shut in until pipeline facilities are available. We will write for production tests and notify you of the results.

The enclosed plat shows that there are no other wells in the immediate area that are capable of producing oil or gas. Before the area can be spaced, a hearing would have to be held at which time you would have an opportunity to be heard.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION
