RE: Boswell Energy Corporation
Windsor #1-24
SW/4 of Section 24-7N-67W
Weld County, Colorado

Dear Mr. Kerker:

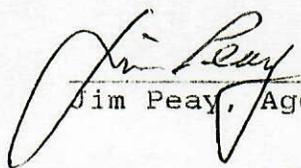

Boswell Energy Corporation proposes to drill a well for oil and gas in the NE/4SW/4 of Section 24-7N-67W. A concrete irrigation canal is located in the SW/4 of Section 24. If the well were to be drilled at a legal location of 600 feet from the east line and 600 feet from the north line, the location would be very close to the aforementioned canal.

In an effort to reduce the possibility of damage to the canal and allow room for the drilling rig, Boswell Energy proposes to move the location, and is requesting that you approve the movement of the drillsite approximately 200 feet northeast of the legal location.

As an offset mineral owner, we ask that you signify your acceptance of this proposal by signing and returning one copy of this agreement.

Thank you for your cooperation.

Sincerely,
Boswell Energy Corporation

Jim Peay, Agent

AGREED TO AND ACCEPTED THIS 3 DAY OF Aug, 1990.
