RE: Location of Foree-Thomas  
No. 1 Felte

Gentlemen:

R. L. Foree and Max L. Thomas propose to drill their No. 1 Felte well 330 feet from the south line of Section 25, Weld County, Colorado, which is the south line of their Felte lease. It is our understanding that a well may not be located less than 600 feet from any lease line to a source of supply below 2500 feet. The reason for moving this location 330' from the south line is that the nature of the surface ground is irrigated cornfield and this location is the best practical location to locate on Mr. Felte's land. As indicated on our attached plat, R. L. Foree and Max L. Thomas are the owners of an oil and gas lease covering all of Section 36, 7N, 67W towards which lease the well has been moved. As you can further see by the plat along with the application R. L. Foree owns all offsets to this well and all leases adjoining the Felte lease. Therefore, we request that this application be approved for the specified location.

Very truly yours,

  
R. L. FOREE, JR.
