Comment:

Per Form 15 400784065, the pit is to be netted. Previous inspections observed that the pit was uncovered, that the netting was stored along the perimeter of the pit, and that wildlife (birds) were observed entering the pit/fluids. Inspection required Operator to replace netting over the pit. It was observed in this inspection that the netting has not been replaced, and the pit remains improperly covered to minimize impacts to wildlife. This CA has not been addressed and remains applicable.

Corrective Action

Replace/Maintain netting over pit.
