#### Operator Comments:

The J & J 42-5 well has an onsite pit that must comply with 909J sampling, effective on January 15th. 2021. The has not produced water since August/2021, making it incapable to grab a sample to represent the pit. Evergreen intends to complete the 909J sampling requirement when the well begins to produce water.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
