Dear Mr. Powell,

This letter is in reference to that on several occasions contact with you was attempted concerning plugging of the above referenced wells in Weld County. These wells were inspected December 1, 1988 and the locations were found stripped of production equipment and the wells not plugged. After reviewing the files in the Denver office no follow up sundry notices have been received reporting the well status as required by Rule 319 (b).

Please update the Denver OGCC office on Sundry Notice (OGCC Form 4) on your plans and timing to plug these wells. If you have any questions contact this office at 894-2100.

Yours truly,

Stephan Pott
Petroleum Engineer
