

## Bradenhead Summary

<b>Well:</b>	STUGART 22N
<b>API:</b>	05123512590000

Bradenhead Test Data	Date	Event Measurement
Form 17 Bradenhead Test Report (psig)	6/2/2023	67
Fluid Pull - 6 gallons	8/11/2023	-
Fluid Pull - 6 gallons	9/1/2023	-
Fluid Pull - 8 gallons	3/6/2024	-
Fluid Pull - 5 gallons	4/18/2024	-
Abatement System Commission Date	4/26/2024	-

**Comments:** 2023 ad hoc test had 67 PSI water flow that blew down to 0 psi after the first minute, water continued to trickle for remainder of test. Bradenhead gas determined to be thermogenic gas with somewhat similar composition as the production gas sample. PDC attempted fluid displacement to remediate bradenhead pressure but could not reach further than 6' with hose. PDC has opened this well to facility abatement.
