Dear Mr. Koin:

Attached are notices from the State of Colorado,  
Oil & Gas Conservation Commission.

We have made our recommendations on these wells  
in the far distant past and you have failed to give a  
definitive response.

It appears that we need an answer and hope you  
will not continue trying to be "cute" with the Oil  
and Gas Commission like you have been with Marlin.

Regards,

*Jim Snyder*
