Re: Gress #1
NE SW Sec 35-7N-67W

Sirs,

We performed the following work on the above lease. This letter is to be attached to a Form 4 as a cement verification.

Set a CIBP at 4350' and dumped 2 sacks of cement with a wireline bailer.
Cut casing at the freepoint of 2000', and laid down the casing.
Laid down the casing.
Ran the tubing to 1100', and spotted 25 sacks.
Laid tubing down to 350', and spotted 25 sacks.
Laid casing down to 176', and spotted 20 sacks.
Spotted 5 sacks at surface.
Cut the wellhead off 4' down, and welded a plate.
Leveled the location, and dug deadmen.

Sincerely,

Dave Rebol
H&R Well Services, Inc.
