Re: Denny #1  
NW SE Sec 27-7N-67W  
Weld County, Colorado

Dear Sirs:

We performed the following work on the above lease. This letter should be attached to a Form 4 and forwarded to the Colorado Oil and Gas Commission.

Set a CIBP @ 3610' and spotted 2 sacks of cement.

Loaded the hole.

Cut and pulled pipe.

Set 25 sacks @ base of surface up (1/2 in and 1/2 out of 8-5/8").

Set 5 sacks of cement at surface.

Cut the wellhead off 4' below surface, welded a plate.

All cement was 50/50 poz, yield is 1.26 cu. ft./sack, weight is 15.1 ppg.

Sincerely,

David Rebol  
Vice-President
