**General Comment:**

This is an Environmental inspection to document spill status. Spill reported on 4/10/2024.

Marsh area down slope from spill area appears to have been impacted by spill. This inspector observed salt stained deposits in marsh area. See attached photos. Standing water was observed in marsh.

From spill report: "An unknown volume of produced water was released from a buried 3" steel pipeline. Produced water flowed into a drainage surrounded by agricultural fields. The pipeline was isolated to stop the release. Soil and water samples were collected and results will be submitted on a supplemental Form 19."

Environmental

Spills/Releases:

Type of Spill: PRODUCED WATER

Estimated Spill Volume:

Comment: Alleged Violation: Operator reported spill of produced water. This inspector observed salt staining within marsh indicating produced water spill impacted surface water.

Corrective Action: Collect soil and water samples as needed to delineate the horizontal and vertical extent of spill and impacts. Submit analytical results on a Form 19 Supplemental.
