July 12, 1951

Mr. Edward D. Smith  
Wickland Motor Company  
Greely, Colorado

Dear Mr. Smith:

Because of the haste necessary in your leaving here on your visit the other day, I did not get the full information concerning the casing program on the well #1 Wilson, Sec. 22, 7N, 63W. Will you please supply this to me now and I will insert it in the Notice of Intention to Drill.

I received copy of the bond which I will approve so that you can proceed without further delay. I would like, however, to have the information for the Notice of Intention as soon as possible.

Yours very truly,

JEC:LHB

John E. Cronin, Secretary  
Colorado Gas Conservation Commission
