General Comment:

Response to Stakeholder (landowner) Complaint
N.E. Field Office received a telephone complaint from Mr. Don Dickenson regarding property damage left unresolved after the P&A of this well on 9-22-2023. Mr. Dickenson stated that the excavation surrounding the cut and capped wellhead remains open and constitutes a safety hazard and needs to be backfilled. The Operator is required to perform soil sampling and attain approval from the ECMC Environmental Group within (3) three months after completing the P&A. The Operator is required to perform all flow-line abandonment requirements prior to backfilling excavation.
