| Comment:                  | Weed debris in the form of tumbleweeds were observed around the wellheads. Tumbleweeds are a troublesome annual non-native weed that easily breaks off at the stem. Operator failed to control and manage weeds to prevent weed waste and prevent the spread of seeds onto adjacent lands. |                  |
| Corrective Action:        | Comply with Rule 606 to remove weed debris.  | Date: 06/05/2024 |

Comment Appears the Operator has performed interim reclamation activities to reduce disturbance areas only needed for production operations, with the evidence of drilling rows and straw crimped mulch. Operator shall continue to monitor and manage this site until the location meets Rule 1003 standards, including stormwater and weed management. Operator shall submit a Form 4 Interim Reclamation Complete notice when the location meets Rule 1003 standards. ECMC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1003.
