Hey Justin

I did Received and understand the flow line abandonment as we discuss. The flowline will be properly evacuated, depleted to atmospheric pressure, cut and sealed below grade. That is what I understand and accept the process.

Please let me know if you need any further information from me.

Best

| Dan,

As discussed over the phone, if you could just respond back and acknowledge that the flowline will be properly evacuated, depleted to atmospheric pressure, cut and sealed below grade.

Thank you and keep me posted if any issues come up next week as crews move in.

Best,
-Justin
