Operator Comment: We tightened the netting and at the request of Cory McDonough, placed a wooden stick in the pan for critters in case they get trapped. Please be aware that this location has a serious snake problem. A seven-foot bull snake lives under this pan. A pumper pulled a 12-foot snake out of the meter house recently, and a third snake, about six feet long, has also been hanging out on this location. It is likely that small mammals are the draw for these reptiles.
