The location was reseeded in the spring but vegetation has not yet established. There are concerns of soil compaction in areas of the location. There are vehicles driving along the flowline which is causing compaction and disturbance. The vegetaion is not establishing along the flowline and there is an area of subsidence that needs to be repaired. Reclamation will need to be monitored and maintained.

Corrective Action

Comply with 1003 Rules. Repair subsidence and reseed as needed.
