Photo 1. Facing north. The well location (Location ID 319675 with API 001-06234) meets final reclamation regulations and standards. Unable to find evidence of oil and gas activities and/or disturbances. Well location and access road appear are part of a land use change to a golf course. Previous FIR (doc #696105459) documented that a soil stockpile and noxious weeds were at the former well location. ECMC Staff received communication from the Operator stating that the golf course uses the area to dump sand/aeration plugs and is being actively managed by Todd Creek Golf Course.
