County: WELD
Qtr Qtr: NWNW Section: 10 Township: 3N Range: 65W Meridian: 6
Latitude: 40.246077 Longitude: -104.654907

Description of Corrosion Protection

Crestone pipelines are covered in a protective external coating. Flowlines are subject to thorough inspections and fabrication standards during installation to minimize coating and pipe defects. Crestone maintains a chemical program to reduce internal corrosion. If a flowline is found to lack integrity, Crestone will investigate, report, and remediate any spills in accordance with the 900 series rules.

Description of Integrity Management Program

Crestone flowlines are pressure tested prior to placing flowlines into service. Flowlines are tested on an annual basis in accordance with COGCC 1104 series rules. If a flowline is found to lack integrity, Crestone will investigate the root cause, as well as report and remediate any spills in accordance with the 900 series rules. All repairs will be completed in accordance with COGCC 1102 Series rules.

Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.

OFF LOCATION FLOWLINE Abandonment Verification

Date: 11/09/2023

Abandonment Verification

The abandoned Off-Location Flowline was located within the jurisdiction(s) of the following local government(s).
(No Jurisdiction)

Description of Abandonment Verification:

The flowline serviced the FEDERAL 12-10 (05-123-17136). The flowline was originally supposed to be removed, but due to co-location was abandoned in place as per Rule 1105.d. See attached exhibit for third party verification, ECMC correspondence, and flowline path exhibit.

OFF LOCATION FLOWLINE Abandonment Verification

Date: 11/09/2023

Abandonment Verification

The abandoned Off-Location Flowline was located within the jurisdiction(s) of the following local government(s).
(No Jurisdiction)

Description of Abandonment Verification:

The flowline serving the Aristocrat 21-10C (05-123-18775) was removed in its entirety via the open trench method. Once the flowline was removed, the trench was backfilled and the land surface graded.

OPERATOR COMMENTS AND SUBMITTAL

Comments

Form 44 filed to report POST-ABANDONMENT verification. The following flowline was abandoned in place:
12317136_FL: serviced Aristocrat Angus Federal 12-10 (05-123-17136)
Pressure test attached.
Third party verification attached.
Flowline path exhibit attached.
ECMC correspondence attached.
The 12317136_FL was abandoned in place and does not have any associated spill/releases reported on a Form 19.

The following flowline(s) were removed:
12318775_FL: serviced Aristocrat Angus Federal 21-10C (05-123-18775)

Updated GIS data attached.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
