Re: Disposal Application  
G.A. Henderson #6  
Cedar Creek Field Logan, County

Dear Sir;

The Oil and Gas Conservation Commission staff has reviewed your application to convert the G.A. Henderson #6 located NE NE SW Sec. 18-9N-53W, Logan County, Colorado to a saltwater disposal well. We have found your proposals acceptable but will withhold final approval to inject until we have received and reviewed documentation of your planned temperature survey and pressure test on the well.

Very truly yours,

*Ed DiMatteo*
