Comment: There is erosion along the access road traveling to the location. Stormwater has washed out areas of the road creating deep gully erosion. There is debris and sediment in the culverts that needs to be removed. Areas of erosion need to be repaired and stabilized. BMP's must be implemented in accordance with good engineering practice and must be maintained until final reclamation is achieved. This CA has been sent to both Operators responsible for the access road.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)
