

Final Reclamation Landowner
Consultation Form
WELL NAME: Sphinx Deep 22-36

TWN 31S RNG 67W QTR/QTR SENR Section 36

Please confirm below if the road corridor and any associated stream or drainage crossing(s) on your property utilized by Evergreen to access this well existed prior to the drilling of the well:

☒ Existed prior to well drilling

Description of original road or

corridor: Road existed prior to operations road is to be left in place
with BMPs, ie. culverts.

What are your requests involving the well pad and associated access road on your property?
Do you want Evergreen to perform:

☐ Full Reclamation and restore all disturbed areas as nearly as practicable to predrilling conditions within the boundaries of the surface use agreement

Description _____

☒ Partial Reclamation (identify improvements of value to you as a landowner (well pad, road, etc.) that you would like to retain

Description Pad to be left in place as is with pit reclaimed. In event of
Sphinx Original well PA, may want Deep well pad reclaimed to natural contours
along with original well.

Seed Mix to be used for Reclamation Reseeding and Revegetation

☒ Use Recommended NRCS Seed Mix
Comments or changes to this mix: _____

☐ Use Landowner Specified Seed Mix
Comments _____

(Provide seed mix tag for variance request)

Reclamation of Access Road(s)

What are your specific requests involving the access road on your property associated with this well?
Do you want Evergreen to:

☐ Close the access road and reclaim and recontour. Grade and remove all culverts and any other road improvements and obstructions (fences, gates, cattle guards) that were a part of the access road,
Comments: _____

☒ Leave access road, culverts, and other stormwater controls in place for Landowner's use.
Comments: _____

Reclamation or other work to be completed on access road(s) if Landowner requests that the road be left in place for the Landowner's use;

Landowner's reason for keeping the access road and intended land use: Reduced impact to land.

Access Road

- ☒ Regrade road
☒ Fix or add erosion and stormwater controls
☒ Strip and seed Road

Gravel on access road(s) if seeding:

- ☐ Remove prior to seeding/ Seed
☒ Leave in place

Gate to Access Road

- ☐ Remove
☒ Leave in place

Access road to be left in place (show on photo or map): _____

Access road to be closed (if any, as shown on photo or map): _____

Reclamation of Well Pad

☐ Reclaim well pad to, remove gravel, recontour and reseed

Comments: _____

☒ Leave well pad in place with location of plugged well appropriately marked

Comments: Well pad to be left in place until future abandonment of Sphinx Original well. Both pads to be reclaimed to original contours following LA of original well.

Reclamation work to be completed on well pad if Landowner requests that well pad be left in place for future use

Landowner's reason for keeping the well pad and intended final designated land use:

Wellpad reclamation to be conducted at the same time as Sphinx Original well to decrease disturbance.

Size of well pad to be left in place (indicate on map, drawing, or photo): _____

Portions of well pad to be reclaimed (indicate on map, drawing or photo): _____

Gravel on well pad

- ☐ Remove/ Reseed
☒ Leave Gravel/ Reseed
☐ Leave Gravel/ NO Reseed

☐ Show location of additional stormwater, erosion control structures to be added on photo, map or drawing

Comments: _____

The COGCC rules require certain actions on the part of Evergreen which cannot be waived by a landowner. Here are some examples of activities Evergreen must perform until COGCC approves final reclamation upon inspection and releases well site from bond:

- Remove all Evergreen oil and gas production equipment from location
- Remove all Evergreen waste material and debris onsite
- Reclaim all pits, cellars, rat holes and other bores
- Remove guy line anchors
- Perform noxious weed control
- Stabilize areas disturbed during operations and reclaim location for erosion control
- Install stormwater management controls on affected location
- Ensure that leaving a road or well pad in place will not result in significant environmental impact
