CORRECTIVE ACTIONS:

1 CA# 197630

Corrective Action: Without an approved Gas Capture Plan or Variance, the well is to be shut in and conserved.
Form 7 reporting needs to be corrected to include all produced gas volumes. If access to infrastructure (gas gathering) has been terminated an updated Form 10 is required.

Date: 08/19/2024

Response: CA COMPLETED

Date of Completion: 08/19/2024

Operator Comment:	This well has been shut-in. The well is connected to a gas gathering line so no Form 10 update is needed, however, a gas compressor is needed to offset high sales line pressure. A sundry is being submitted for the proposed facility update and the well will remain shut-in until compressor installation. Historical Form 7 reporting is being corrected to reflect all produced gas volumes.
