Comment:

The well location (Location ID 305329 with API 123-22807) meets final reclamation regulations and standards. Unable to find evidence of oil and gas activities and/or disturbances. Well location and access road appear reflective of reference crop areas. The most recent off-location tank battery remains active for other wells and the original tank battery was decommissioned prior to 2014.

However the Form 44 flowline abandonment notice remains in draft and therefore final reclamation will remain IN PROCESS.
