Hi Sharon,

We realized that the Alkali Gulch (Facility #412323) pipeline in the Four Corners Form 9I and 9S was included, but this will be transferred to GNG. I'm so sorry we didn't catch this sooner, but are you able to remove it from both forms? I believe American Helium is not taking anything from La Plata County. We have been in touch with La Plata County and they are aware of the error.

Thank you in advance and please let me know if there are any issues/questions.

I will remove from both and add a comment to each form indicating the removal per this email exchange.

Thanks,

Sharon Schoepflin
