Comment:

<p>This location does not comply with Rule 1004. The eastern portion of Location 333296 appears to have been superseded by an active oil and gas location tank battery (Location ID 432842) based on construction layout drawings from Extraction Oil &amp; Gas. The former well and tank battery do not appear to be progressing towards Rule 1004 regulations and standards as the tank battery is predominantly undesirable vegetation (kochia and russian thistle) and the well locations still have road base material indicating that they have not been reclaimed. Refer to attached inspection photos for additional information.</p>
