Operator Name: BEEMAN OIL & GAS INC - 7125

Location ID: 425419

August 22, 2024

August 22, 2024

Photo 14: Photos taken from the top of the fill slopes on the south end of the Location, facing northwest and north. Revegetation efforts have not been performed, or have failed; desirable plant germination/establishment was not observed within the recently reclaimed areas. Vegetation within photos are predominantly Undesirable and Noxious Plant Species. Unable to find evidence that soils had been "crimped" with any materials such as mulch. BMPs along slopes have either not been implemented or not maintained until long-term stabilization is achieved; slopes remain predominantly bare.
