General Comment:

On 8/31/24 SE Compliance Specialist Brian Welsh conducted a routine field inspection of the well location and equipment.

During this inspection, the field inspector observed the water tank containment has been damaged. Attached photos show dual tire tracks leading up to and onto the steel ring containment. See CA in tank inventory

Comment:	Steel ring containment. SE area field inspector conducted a field inspection regarding damage to the containment of the water tank. During the inspection, the field inspector observed dual tire tracks leading up to and onto the steel ring containment thus damaging the containment. The buried water tank was not damaged and the damage was limited to bending the containment for the water tank.			
Corrective Action:	Repair or replace the steel ring containment for the water tank			Date: 09/17/2024
